	JnNURM	Smart Cities Mission	AMRUT
Number of cities	65	100	500
Period	7 Years (2005-2012)	5 Years (2015-20)	5 Years (2015-20)
Criteria	Category A cities (population greater than 4 Million as per 2001 census)- 7 Category B Cities (population between 1 and 4 Million as per 2001 census)- 28 Category C Cities (Religious/Historic Towns)- 30	Smart City aspirants will be selected through a 'City Challenge Competition' intended to link financing with the ability of the cities to perform to achieve the mission objectives. Each state will shortlist a certain number of smart city aspirants as per the norms to be indicated and they will prepare smart city proposals for further evaluation for extending Central support. Cities should satisfy the following conditions*: 1. Have a Master Plan 2. Have digitized spatial and GIS Maps 3. Give clearance to projects using online processes in time bound manner 4. Deliver public services online 5. Have time bound way for granting free right of way for laying optic fiber network, water supply etc. 6. Create IT based platform from communication with citizens 7. Create Open Data Platform 8. Adopt affordable tariff structures 9. Make information and decisions taken online 10. Offer all projects to private sector first (PPP) 11. Set up regulatory body for all utilities such as water supply	Cities and towns having 1 Lakh population, including some cities situated on stems of main rivers, a few capital cities and important cities located in hilly areas, islands and tourist areas.
Central Government outlay	Rs 66,085 Crores	Rs 48,000 Crores	Rs 50,000 Crores
Actual Outlay by Central Government	Rs 47,697 Crores*	NA	NA
Funding pattern (Centre :State: City)	Category A- 7:3:10 Category B- 5:2:3 Category C- 8:1:1	1:1 (Centre: State) Smart City Action Plans will be implemented by Special Purpose Vehicles (SPV) to be created for each city and state governments will ensure steady stream of resources for SPVs.	For cities with population less than 1 Million- 1:1 (Centre: State) For cities with population greater than 1 Million- 1:2 (Centre: State)

	JnNURM	Smart Cities	AMRUT
Reform Objectives	- Modern and transparent budgeting, accounting, and financial management; - City-wide framework for planning and governance; - Universal access to basic levels of urban services; - Financially self-sustaining agencies for urban governance; - Transparent accountable governance; - E-governance to reduce cost and time of service delivery	Focus will be on core infrastructure services like: - Adequate and clean Water supply; - Sanitation and Solid Waste Management; - Efficient Urban Mobility and Public Transportation; - Affordable housing for the poor; - Robust IT connectivity; - Governance, especially e-governance and citizen participation; - Safety and security of citizens; - Health and education; and - Sustainable urban environment.	AMRUT will adopt a project based approach to ensure basic infrastructure services relating to water supply, sewerage, septage management, storm water drains, transport and development of green spaces and parks with special provision for meeting the needs of children. The Mission will also be linked to promotion of urban reforms such - E-governance; - Constitution of professional municipal cadre - Devolving funds and functions to urban local bodies; - Review of Building bye-laws - Improvement in assessment and collection of municipal taxes; - Credit rating of urban local bodies; - Energy and water audit; and - Citizen-centric urban planning.
Role of Centre	Individual projects had to be sanctioned by a Central Sanctioning and Monitoring Committee	Centre will conduct the "City Challenge Competition"	Central Government will not appraise individual projects. States to only submit State Annual Action Plans to the Centre for broad concurrence based on which funds will be released
